

A Year with Covid 19 for me

I never thought I would be Living through a pandemic.

I felt isolated in my apartment.

I couldn't celebrated holidays and birthdays with my family.

We have to wear a masks; it is pain asking for help putting a mask on.

I can not talk that good with the mask.

Only social events I do is over zoom

I was fear of getting sick.

Now with the vaccines I feel we are turning the corner.
